Supplemental action

This supplemental action is being mailed to the applicant in order to correct an inadvertent error. Cancelled claim 54 was inadvertently included in the allowed claims set in the previous Office action. Any inconvenience caused is deeply regretted.

Claims 44-49, 51-53, 55-59, 111-112 are currently pending and are present for examination.

Applicants' amendments and arguments filed on 5-2-05, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Drawings

Drawings submitted in this application are accepted by the Examiner for examination purposes only.

Priority

Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged.

Allowable Subject Matter

Claims 44-49, 51-53, 55-59, 111-112 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests a recombinant cell suitable for degradation of an oligosaccharide, wherein said recombinant cell comprises polynucleotides *celZ* and *celY* isolated from *Erwinia* encoding the polypeptides EGZ and EGY,

capable of acting in synergy as claimed in claims 44-49, 51-53, 55-59, 111-112. While the endoglucanases from *Erwinia* were known, it was determined that their action in synergy was not disclosed in the prior art and that is what renders this instant invention non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
